

I am opposed to allowing low power FM stations to take priority over FM translator service for the following reasons:

1. I enjoy the K-Love Radio Network, which provides Christian programming to my community.
2. If a LPFM replaced K-Love's signal, this community would be deprived of programming that is not readily available elsewhere.
3. Due to the fact that Christian radio serves a large segment of the public interest, I respectfully urge you to reject an increase in LPFM use.
